## Summary

MCA graduate with practical experience in web development and proficiency in C, Java, Spring Boot and React.js. Strong skills in full-stack development, with experience in both front- and back-end technologies. Completed an internship focused on web technologies, demonstrating problem-solving ability and readiness to contribute in a dynamic software development role.

## EDUCATION

### Sanjay Ghodawat University

M.C.A. - Computer Science and Application - **CGPA - 7.73**

Oct 2021 – Sept 2023

Atigre, Kolhapur

### Shivaji University

B.C.A - Computer Application - **60.22 %**

Aug 2016 - Jan 2020

Kolhapur

## COURSEWORK / SKILLS

- DSA
- Operating Systems
- Oops Concepts
- Computer Networks
- Cloud Computing
- Software Engineering
- DBMS
- Java
- Web Development
- React js

## EXPERIENCE

### Intern at VertueByte

Role - Software Developer

Jan 2023 - March 2023

Wanourie, Pune

- Learned Design and Development responsive website using **HTML, CSS, and JavaScript, React js, Figma, ensuring cross-browser compatibility.**
- Completed assigned tasks efficiently, including bug fixes and feature implementations, and published projects on GitHub to demonstrate progress.
- Gained hands-on experience in web development workflows, enhancing coding skills and understanding of best practices in web design and deployment.
- Uploaded and maintained repositories on GitHub, ensuring proper version control, and successfully deployed multiple projects on platforms like GitHub Pages, Netlify, and Vercel to deliver seamless and accessible web applications.

## PROJECTS

### NewsDay — Read The Best Today | Flask, Javascript, React js, python, SQL April 2023 - May 2023

- Real-time news aggregation from multiple sources and categories.
- Caching mechanism to reduce redundant API calls and improve response times.
- Created an efficient, scalable system to aggregate news from multiple sources, offering users customized news feeds.

### Recipe Revelator | HTML, CSS, Javascript, DOM Manipulation, Bootstrap

Nov 2019 - Jan 2020

- Developed a Recipe Finder web application that allows users to search for recipes based on ingredients and dietary preferences.
- Search recipes based on ingredients and dietary filters.
- Improved user engagement with a responsive design and real-time recipe suggestions.

### Personal Portfolio | HTML, CSS, React, Javascript, Node js

2021-22

- Developed a responsive and interactive personal portfolio website using React.js for the **frontend** and Node.js for backend services, showcasing professional skills, projects, and contact information.
- Integrated dynamic project and skill sections using RESTful APIs and a MongoDB database, enabling seamless updates without modifying the codebase.
- Added Deployed the portfolio on **GitHub Pages** with a custom domain, ensuring cross-device compatibility and optimized performance for a global audience.

## TECHNICAL SKILLS

---

**Languages:** Java,C, Python Basic, C++, JavaScript, SQL

**Technologies/Frameworks:** HTML5, CSS3, React, PHP, Wordpress Express, Javascript, NodeJS, Bootstrap, Figma

**Developer Tools:** VS Code, PyCharm, IntelliJ, Canva, Github, Netlify, Vercel app, AWS

## CODING PLATFORMS

---

- Solved Problems on **Hackerrank**. [↗](#)
- Solved Problems across **GeeksforGeeks** . [↗](#)

## CERTIFICATIONS

---

- Java Fullstack Development - Udemy

## EXTRACURRICULAR

---

- FEST-2K22 at SGU witnessed a remarkable performance in boys' bodybuilding, silver prize on 27/11/2022
